EVENT RULES

FIREARMS

Real steel firearms are not allowed to be displayed while at airsoft events. Make sure to securely stow away any firearms inside your vehicle when you arrive onsite and keep it there until after the event and you have left the property.

ALCOHOL

Is permitted for those drinking responsibly aged 21 or over.

BLIND MAN

This is called whenever a non-player or player is in the playfield without eye protection on. All players are expected to echo blind man so that everyone on the field hears it, and upon hearing it, each player is expected to sit down and wait until "Game On" is called to continue the game.

EYE PROTECTION

Eye protection needs to meet ANSI Z87.1-1989 standards and must fully cover your eye sockets from all angles of impact. Steel mesh eye protection is allowed as well but not recommended.

FACE PROTECTION

Lower Metal Mesh Masks are required.

REAL WORLD MEDICAL

Any real-world medical emergencies should be reported immediately to ADMINS through the participant chain of command or the ADMIN channel. "Cease-Fire" should be called out. All event activities stop and participants should respond to the situation accordingly. "Game On" will only be called by EVENT STAFF MEMBERS when play can resume.

FIGHTING & DISPUTES

There is a zero-tolerance policy towards acts or threats of violence towards any person. If needed, local authorities will be called. If you have a dispute, please refer to an admin and allow them to take care of the issue. Do not handle it yourself.

FIRING YOUR REPLICA

Firing your replica in a manner which you are NOT visually seeing where you are shooting at is considered "blind firing" and will not be tolerated. Do not fire your replicas from or into or through regen areas (or designated "safezones"). If you must test fire your replica, take it to the appropriate areas designated to do so. Shooting in camping is strictly forbidden.

REPLICA HANDLING

GAMEPLAY MECHANICS

STARTING POSITIONS

All teams will start in their respective areas designated by Command or Event Host.

OBJECTIVES

These will be posted before the event or passed down from your chain of command during the course of game play.

HIT CALLING

Airsoft is a sport of honor and integrity. Always call your own hits, do not call other players hits. "When in doubt, call yourself out". Any player struck by a BB while in game (including Friendly Fire) is considered hit. GUN HITS & RICOCHETS - DO NOT COUNT.

You may never self-heal. An individual's Heal Rag is considered that player's property and cannot be shared among teammates. Only ONE heal rag per person.

Wounded / Dead players do not talk.

Acting out deaths is purely optional however makes it more identifiable that you have been shot.

Medic Heal

Anytime you are shot while in play, you will raise and place a Red Death Rag on top of your head to symbolize you are currently wounded and considered out of play. You MUST wait a mandatory 5 minutes for a bleed out while yelling for a "TEAM MEDIC" to revive you. A Team Medic will tie on the white heal tourniquet around your upper arm. Once this is completed, you are considered back in play. When you are shot again, you will immediately go back to respawn. There is no more unlimited heals. There are no more buddy heals. If a team medic does not reach you within the mandatory 5-minute bleed out, you will then proceed to your respawn.

DOUBLE TAP

Anytime, a player can safely reach an opposing player bleeding out, they can say the words "Double Tap" to the player. This will immediately send the bleeding player to their Mobile CCP or Team Base WITHOUT the option of being healed via a Heal Rag / Medic.

MOBILE CASUALTY COLLECTION POINT [MCCP] **If being utilized*

Is an 8' tall plastic pole with a medic symbol on the flag of the color of faction it belongs to. This Area is where dead players go to regen after they have bled out or been healed and then bled out.

Only LIVE MEDICS can MOVE their Mobile CCP under their command direction.

Only LIVE MEDICS can DISABLE a Mobile CCP. This is done by placing the pole on the ground on its side.

Only LIVE MEDICS can ENABLE a disabled Mobile CCP. This is done by placing the pole upright on its base

REGENERATION

This is the term used when players are allowed back into the game from a timed release via clock from Mobile CCP's or their Team Base [Fall back area]. This occurs every 10 minutes.

Example (Clock): You are shot at 12:03pm and begin the bleed out process and/or Double Tapped. You then arrive at your Mobile CCP or Base at 12:12. You can regen at 12:20pm

Each faction will also have Mobile CCP under their control. It is approximately an 8' tall plastic pole with a Medic symbol on the flag of the color of faction it belongs to. This is the area where dead players go to regen after they have bled out or been healed and then bled out.

Only MEDICS can move their Teams Mobile CCP under their commander's discretion. Only MEDICS can disable / enable a Mobile CCP.

SAFETY KILLS

Anytime you engage a player less than the minimum engagement distance for the replica you are using, you will use the "Safety kill" or "Bang Bang" call out loud per player you are trying to engage. This is mandatory not a individual's choice to utilize or not.

PARLAY

When combat becomes too close for a reasonably safe engagement, either player may request for a parlay. If both players accept the request, each will reset back a safe distance of 50 feet and resume the engagement.

PLAYER SEARCHES

Bleeding out players may be searched. To initiate a search, the opposing player puts his hand on the shoulder of the player and will say "I am searching you". At that moment, the bleeding out player must relinquish any items they have in their possession at the time of the search (intel, kill coins, provided bagged ammo etc...) Players in possession of more than one of the items listed, only relinquishes one item per search/per bleed out. Players cannot be searched once they have bled out and returning to a regen area.
